# Florence Nightingale

12<sup>th</sup> May 1820-13<sup>th</sup> Aug 1910

**Florence Nightingale** (1820-1910), known as “The Lady with the Lamp,” was a British nurse, social reformer and statistician best known as the founder of modern nursing. Her experiences as a nurse during the Crimean War were foundational in her views about sanitation. She established St. Thomas’s Hospital and the Nightingale Training School for Nurses in 1860. Her efforts to reform healthcare greatly influenced the quality of care in the 19<sup>th</sup> and 20<sup>th</sup> centuries.

## The Florence Nightingale Pledge

I solemnly pledge myself before God and in the presence of this assembly, to pass my life in purity and to practice my profession faithfully.

I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug.

I will do all in my power to maintain and elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling.

With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.
